Rule refresher

Here's a section for your home, pets, and property to ensure a peaceful, safe, and clean community.

BUG CONTROL

- Falling temperatures mean mosquitoes, roaches, and spiders are on the hunt for a cozy corner in warm homes. They seek food and moisture.
- Buckle up pest control plans. Ventilate your home, seal cracks/ holes, declutter storage piles, and keep wet zones dry.
- Pest control in common areas and maintenance of bug zappers are being carried out as part of seasonal care.

THINK AND THROW

- Green waste, electronics, and hazardous materials do not belong with household trash.
- Double bag your trash bag if it leaks or is too heavy.
- Never leave trash on the floor, instead place it inside the garbage bins.

SUMMERTIME & PETS

- Pets with white-colored ears and short-noses are prone to summer-related health risks.
- Please pick up after your pets.
- Ensure that your pet is not making too much noise as that can disturb the neighbours.
- While travelling, ensure that pets are safely relocated to avoid distress.

PARKING ETIQUETTE

- Keep your parking bay free of any stored items.
- Do not use a parking spot that is not designated to you.
- Please park your vehicles within your garage area and do not park on sidewalks or community roads.

Pests abound!

The importance of pest management cannot be overstated. Pest control can prevent health issues and even property damage caused by harmful insects. Regular pest control inside your home is recommended even if the common areas are regularly fogged.

- ✔ **Reduces allergies:** Pests in our homes could lead to skin allergies, asthma, and other respiratory problems. In some cases, people are also allergic to pest allergens. One of the most common causes of asthma among children is cockroaches.
- ✔ **Protects your property:** Carpet bugs, cockroaches, silverfish and moths are among the insects that attack furniture's wooden and fabric components. Controlling pests is critical to avoiding costly repairs and replacement to your assets.
- ✔ **Food supply:** Regular insect management at home might help to avoid food waste and contamination. In addition to attacking food, these bugs leave behind unwanted organic materials that can harm people's health.
- ✔ **Diseases & Health Risks:** When pests breed in large numbers, they give rise to various diseases and health problems like leprosy, skin infections, UTIs, intestinal infections, food poisoning etc. These bacteria and viruses cause serious harm to humans and pets.

Live more sustainably

Living sustainably is becoming increasingly important in our world today and it's great to see communities taking steps to encourage their residents to reduce waste. One major aspect of sustainable living is being mindful of our energy and water usage. It's important to remember that small changes can add up to big results. Swapping daily tasks and products for more sustainable/eco friendly alternatives can reduce the effect we have on the environment.

Cutting down on water usage not only reduces your effect on the environment but also helps you save on your bill. Having a water butt in your garden allows you to water the garden without using water from the tap. Reusing water after cooking or cleaning to water plants decreases your water usage.

Sell or donate unused or unwanted items. This gives the items a new purpose and lessens the production of new items. This can also save you money, unlike throwing away old products and filling landfills.

Turning off lights and electronics when they are not in use, using energy-efficient appliances, and taking shorter showers can all make a big difference.

When you recycle, items get broken down into materials which can be used in new products. Not only does this repurpose items, but it also takes the strain off the amount of raw materials that need to be harvested.

Ramadan Recipe Corner

Ramadan celebrations are incomplete without food and banter. Some recipes have a special place in our lives because of the memories around them. This Ramadan, our resident Sakina Hussaini shares a dish close to her heart and family.

Ingredients

- 1 cup vermicelli
- 1 litre full-fat milk
- 1/2 cup ghee (clarified butter)
- 1/2 cup chopped dates
- 1/4 cup chopped almonds
- 1/4 cup chopped cashews
- 1/4 cup chopped pistachios
- 1/4 cup raisins
- 1/2 cup condensed milk
- 1/2 cup sugar (adjust to taste)
- 1/2 teaspoon cardamom powder
- A pinch of saffron strands (optional)
- Rose petals and chopped nuts

Sheer Khurma can be served warm or chilled as preferred.

Let's get cooking

Prepare Vermicelli: Heat ghee in a pan and sauté vermicelli until golden brown. Set aside after even browning.

Boil Milk: Bring full-fat milk to a boil in a separate pot. Add condensed milk, sugar, and cardamom powder; stir until the sugar dissolves.

Roast Dry Fruits: Lightly roast dates, almonds, cashews, pistachios, and raisins in a pan. Add it to the boiling milk.

Add Vermicelli: When the milk thickens slightly, add the roasted vermicelli. Cook until the vermicelli is soft. Add saffron strands for aroma.

Serve: Once desired consistency and sweetness is reached, remove from heat. Garnish with rose petals and additional chopped nuts.
